

Crayon Box Throw (Double Knit)

Work with the Ribbing stitch in this fun, colorful throw. The bright colors and bold stripes make this a simple knit favorite and with the double knit, double the warmth! Design by Jacquelyn Darragh.

LOOM: 28" Knitting Board + extenders set up for double knit at 2 cm spacing

YARN: Sample uses Hobby Lobby's I Love this Yarn, Worsted Weight. Colors: Grape, 2 skeins. Pink, Tropical Pink, Yellow, Peacock Blue, and Neon Green, 1 skein

STITCHES: Rib Stitch and Stockinette

NOTIONS: Knit hook, crochet hook

SIZE: 28 x 34 inches

GAUGE: 5 stitches X 6 rows = 2 inches

Tip: Use two strands of one yarn, throughout the making of this throw. When you are knitting a solid color, for example, grape rib stitch, just use both ends of the skein of one yarn, pulling one strand from the center and one strand from the outside. When using two different colors together, it will be much easier if you use one strand of each pulling from the center of the skein, which will keep them from tangling.

With each color change, cut yarn and knot after tying on the next color. Always tie on new color at 2nd stitch so that knots do not show from outer edge.

INSTRUCTIONS

Cast on: 64 stitches in Stockinette stitch with Grape yarn. Lay contrasting anchor yarn.

Note: Complete throw is worked in Rib Stitch until you come to the bind off row.

Rib Stitch: After the cast on, start first row by wrapping the top 1st peg and bring down to the bottom 3rd peg. You are skipping peg 1 and 2 on lower board. Your yarn is at an angle. Now go back up to top board to 3rd peg and wrap. Take yarn down to lower 5th peg. Continue wrapping every other peg at this angle till you get to the end of your stitches. To return, take yarn around end of pegs to wrap the top last peg. Continue by wrapping all the empty pegs. You will see that you are going back with peg 1 to 3 again and working at the opposite angle. This is what creates the ribs. It is correct that the last pegs are wrapped consecutively. Hook over all pegs. Repeat for each row according to color design.
